

RAC 2017

SUBMITTER	UNIT	PROPOSAL
Burt Garcia	Water Protection Division Reorganization	Implement the water reorganization. Function as one water organization with a shared culture and mutual support. Use a water all-hands survey to measure this commitment.
Douglas Minter	UIC	Region 8's Air and Water permitting programs will complete a long-term agreement with federal surface authorizing agencies (e.g., BLM) and other parties (USFWS) to ensure EPA's future federal actions (e.g., UIC permits) comply with both the Endangered Species Act and the National Historic Preservation Act by 9/30/17.
Bert Garcia	Drinking Water	Enhanced Lead and Copper Rule implementation RTCR implementation

OTHER COMMENTS

Assuming our draft permits for Dewey Burdock go out for comment in FY 16, it may be possible for final permit decisions to be made in FY 17. However, this will depend on several factors including the number and nature of public comments and whether additional tribal consultation work is needed with a number of tribes. Alternatively, here is a more cross-cutting proposed measure and it very much depends on the progress we make over the next six months.
